Define the Problem Statements

I am	I'm trying to	But	Because	Which makes me feel
Passenger	Travel safely and comfort	Sometimes I feel time management is poor	Change of schedule due to weather	Uncomfort and wasting my time

Problem Statement:

- While a person make his travel in railway, He/she might get frightened about time management due to the unexpected weather conditions, Loss of working time of staff requiring pass. etc.,
- To avoid these kinds of issues and to enjoy the traveling there should be establish a system for checking ticket status or train status, tracking the train route and minimize the Wastage of lot of Paper by show the QR code to ticket checker.
